KY Youth Services Satisfaction Caregiver Survey Report 2018
Pennyroyal
In 2018 the Kentucky Cabinet for Health and Family Services (CHFS), Department for Behavioral Health, Development and Intellectual Disabilities (BHDID) conducted this survey to evaluate satisfaction of services delivered at Kentucky’s Community Mental Health Centers (CMHCs).
Introduction

This document was created as a result of collaboration between two key entities:

- The Kentucky Department for Behavioral Health, Developmental and Intellectual Disabilities (DBHDID) and
- The Community Mental Health Centers (CMHCs)

Purpose

The purpose of this document is to evaluate the satisfaction of services delivered by the Community Mental Health Centers (CMHCs) from the consumer’s perspective. The source of information reported in this document is aggregated results of a survey.

Why This Survey?

The Youth Services Survey for Families (YSS-F) was developed and validated at a national level in part to promulgate data standards that allow for valid results that better inform policy and decisions. The YSS-F is designed as the primary tool to evaluate and include the youth client caregivers’ perspectives of public mental health services they have received.

Appropriate Use of These Survey Results

The results of this survey are intended to express the aggregated data of respondents’ perception of care. This booklet represents the perceptions of a sample of CMHC clients who are actively receiving outpatient services during the time of the survey implementation. The results are not intended to be interpreted as the opinion of all CMHC clients of services received.
This output report includes results about the survey’s seven core domains:

<table>
<thead>
<tr>
<th>Domain</th>
<th>Primary Concerns Related to the Domain</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>General Satisfaction</strong></td>
<td>Services were, overall, satisfactory and preferable to other choices</td>
</tr>
<tr>
<td><strong>Access to Services</strong></td>
<td>Staff availability, the range of service options, and how quickly and conveniently services were received</td>
</tr>
<tr>
<td><strong>Cultural Sensitivity</strong></td>
<td>Cultural and linguistic access and whether services promoted recovery and continuity of care</td>
</tr>
<tr>
<td><strong>Participation in Treatment Planning</strong></td>
<td>Clients’ participation in planning services. For example, whether the patient, not staff, decided treatment goals</td>
</tr>
<tr>
<td><strong>Outcomes</strong></td>
<td>Services provided patients with positive changes in areas for which treatment was sought and minimal negative outcomes.</td>
</tr>
<tr>
<td><strong>Social Connectedness</strong></td>
<td>Services contributed to improving natural supports which come from family or friends</td>
</tr>
<tr>
<td><strong>Functioning</strong></td>
<td>There was a positive effect on independent community living and decreasing distress caused by symptoms</td>
</tr>
</tbody>
</table>
State Mental Health Authority

The Kentucky Department for Behavioral Health, Developmental and Intellectual Disabilities (DBHDID) is identified by Kentucky Revised Statute (KRS) 194.030 as the primary state agency for developing and administering programs for the prevention, detection, and treatment of mental health, developmental, intellectual disabilities, and substance use disorders.

DBHDID Website: http://dbhdid.ky.gov/

Regional Community Programs

Kentucky is divided into fourteen geographic regions for the purposes of planning and providing publicly funded community mental health services. For each region a Regional Board for Mental Health or Individuals with an Intellectual Disability has been established pursuant to KRS 210.370-210.480 as the planning authority for community mental health programs in the region.
Pennyroyal Center is a comprehensive Community Mental Health Center providing services for Mental Health, Intellectual and Developmental Disabilities and Substance Abuse. Pennyroyal Center has four full service clinics located in Hopkinsville, Madisonville, Greenville and Princeton.

The mission of the Pennyroyal Center is to improve the quality of life for the citizens of this region by planning for and providing services for persons with mental illness, intellectual or developmental disabilities and substance abuse.

The Pennyroyal Center was founded in 1967, but the roots go much deeper. In the 1940’s Hopkinsville business man Frank Yost and his wife Ruth took a keen interest in improving care for patients at Western State Hospital. Mrs. Yost helped create many new programs at the hospital including a beauty and barber ship and other services. But they also realized that there was a huge gap in mental health services within their community. In the mid 1950’s the Yosts helped create a community mental health clinic which was featured on a live CBS telecast by Edward R. Murrow.

In the 1960’s Kentucky became a leading state in creating a statewide network of community mental health centers. The Pennyroyal Center was a result of those efforts and continues in its mission today of providing and planning for services to help the residents of its region in the areas of mental health, substance abuse and intellectual and developmental disabilities.

Counties
Caldwell, Christian, Crittenden, Hopkins, Lyon, Muhlenberg, Todd, Trigg

Services

Mental Health Care: Individual Therapy, Group Therapy, Family Counseling, Children’s Services, Marital Counseling, Case Management, Therapeutic Rehabilitation Program, Interagency Mobilization for Progress in Adolescent and Children’s Treatment (IMPACT), DIVERTS, Therapeutic Foster Care, School Services, Divorcing Parents Workshop, Prevention Services, Domestic Violence, Anger Management, Employee Assistance Program (EAP) Services.

Substance Abuse Programs: Regional Prevention Center, Trilogy Center for Women, Jail Treatment Programs, DUI Assessment and Treatment, Outpatient Treatment.

Website: www.pennyroyalcenter.org
Methodology

The survey was implemented at outpatient clinics operated by the CMHCs. During each summer staff make the survey available to people who arrived for outpatient appointments at selected clinics. Completing the survey was voluntary and had no implications on appointments or services provided.

Survey Penetration Rate

Survey Penetration

Table 1.

Pennyroyal Survey Penetration Rate in State Fiscal Year 2018
(July 1, 2017 - June 30, 2018)

<table>
<thead>
<tr>
<th>Number of Youth (Age &lt; 18) Served</th>
<th>2,439</th>
</tr>
</thead>
<tbody>
<tr>
<td>Number of Surveys Returned</td>
<td>202</td>
</tr>
<tr>
<td>Survey Penetration Rate</td>
<td>8%</td>
</tr>
</tbody>
</table>

During state fiscal year 2018, 2,439 youth clients visited Pennyroyal. Two hundred two caregivers of youth clients participated in the survey in Pennyroyal, resulting in a 8% penetration rate. (Table 1)
Youth Clients’ Demographic Characteristics

The demographic profile of youth respondents in Pennyroyal in 2018 is presented below. In this report, youth respondents’ demographic characteristics are presented on gender and race.

Gender

<table>
<thead>
<tr>
<th>Table 2. Gender of Youth Respondents</th>
</tr>
</thead>
<tbody>
<tr>
<td>Male</td>
</tr>
<tr>
<td>Female</td>
</tr>
<tr>
<td>Total</td>
</tr>
</tbody>
</table>

As Table 2 indicates, male respondents outnumber female respondents.

Race

<table>
<thead>
<tr>
<th>Table 3. Race of Youth Respondents</th>
</tr>
</thead>
<tbody>
<tr>
<td>American Indian /Alaska Native</td>
</tr>
<tr>
<td>Asian</td>
</tr>
<tr>
<td>Black (African-American)</td>
</tr>
<tr>
<td>Hispanic</td>
</tr>
<tr>
<td>Native Hawaiian / Other Pacific Islander</td>
</tr>
<tr>
<td>White (Caucasian)</td>
</tr>
<tr>
<td>Other</td>
</tr>
<tr>
<td>Total</td>
</tr>
</tbody>
</table>

The majority of youth respondents are White (Caucasian) (70%) while 4% of respondents report being of Hispanic descent.
Youth Clients’ Social/Medical Backgrounds

Child/Youth caregivers who responded to the survey were also asked about living arrangements, school attendance, medical history, and number of months the child/youth received services.

Living Arrangement

Table 4. Child Is Living with Caregiver

<p>| | |</p>

<tbody>
<tr>
<td>Yes</td>
<td>94%</td>
</tr>
<tr>
<td>No</td>
<td>6%</td>
</tr>
<tr>
<td>Total</td>
<td>195</td>
</tr>
</tbody>
</table>

About 94% of respondents indicate that their children are living with them.

Further questions reveal that in the last 6 months, about 73% of youth clients have lived with one or both parents and 12% of children have lived with another family member. (Data not shown)

School Attendance

Figure 1. The Number of Days Child Was in School Since Beginning Services

About 34% of respondents indicated that the number of days their children were in school has increased since they started receiving services (Figure 1) while 15% reported that their children were expelled or suspended after beginning services (data not shown).
Medical History

Figure 2. Medical Doctors (or Nurses) Visits During Last Year

Figure 2 indicates that 80% of youth clients have visited medical doctors (or nurses) for a health checkup or because he/she was sick in the last year. Also, 76% of respondents reported that their children are receiving medication for emotional/behavioral problems. Among them, 93% of respondents report that the doctor or nurse shared information about side effects. (Data not shown)

Number of Months the Child/Youth Received Services

Figure 3. How Long Child Received Services from the CMHCs

Forty-two percent of respondents report that their children received services from the CMHC for more than 1 year. (Figure 3)
